

Lexmark 80 Maintenance Reset
Lexmark T620/T630

This message indicates that the maintenance kit parts need replacing at this time in order to maintain the print quality and the reliability of the printer. The printer will display the **Scheduled Maintenance** message at a fixed page-count interval. The page count interval for the maintenance message is at approximately 300,000 letter-size pages. If you regularly use paper of a larger size, such as 'legal', the **Scheduled Maintenance** message will appear sooner.

1. Turn printer off
2. Press and hold the SELECT and RETURN
3. Turn printer on
4. Keep holding until you see PERFORM SELF TEST
5. Release those buttons and press the GO button.
6. Select Config menu to reset count
